Si votre enfant ne se sent pas bien et qu'il n'est pas en mesure de participer aux activités scolaires, incluant les récréations, c'est mieux de les garder à la maison.

Température froide/Cold Weather

Les élèves vont à l'extérieur pour toutes les récréations sauf s'il pleut ou s'il fait trop froid. S'il vous plaît voyez à ce que votre enfant soit habillé convenablement chaque jour surtout en hiver.

Quand la température baisse, l'école veille à la sécurité des enfants en Assurant qu'ils puissent entrer se réchauffer au besoin. Quand la température ou le refroidissement éolien atteint -27°C , les enfants sont gardés à l'intérieur durant les récréations.

Students are required to go outside for morning, lunch and afternoon recess. The safety of students during cold weather is a concern to both the school and home. Decisions regarding whether students should remain outside or brought indoors to protect them from the cold will have to be made occasionally. All possible measures must be taken to ensure their safety. No student will be required to stay outside for prolonged periods of time when the air temperature or wind chill is -27°C or colder. The staff will use discretion to determine the length of time the students will be allowed to stay outside. Supervision will be provided in the school when cold weather necessitates that students remain inside.

Parents are reminded to ensure students are dressed for cold weather. The school recommends young children wear boots, ski pants, and a jacket or parka with a hood, toque and warm mittens. Face and neck warmers are important to cover exposed flesh.

Storm Policy and Emergency billeting

To ensure the safety of students traveling on school buses careful consideration must be given to the visibility, temperature, wind-chill and road conditions. The following outlines the procedure to follow:

1. Parents or guardians are required, at the beginning of the school year, to complete the TN-3-I emergency billet form and return same to their principal. In cases where students attend practical arts courses in another community, the emergency billet form shall state an emergency billet for that community.
2. If a bus driver feels he/she is unable to make his/her a.m. route, or that the actual temperature at the home school is -38°C or less, or the wind chill is -47°C or less, the bus driver shall immediately inform the transportation supervisor and Principal and thereafter inform all the parents on the route that the route will not be driven. If the bus driver is unable to contact the principal or the vice principal, the bus driver should contact the transportation supervisor or any senior staff member or the local trustee. The

principal shall inform the local trustee of the decision. It is the responsibility of the bus driver to contact all parents/guardians if the route is cancelled.

A) If bus drivers are unable to leave their own yard in the PM; they should follow the same procedure as in the AM.

B) If buses are parked at school and the regular bus driver is unable to leave his/her own yard, he/she should contact a spare driver. This applies for AM and PM routes.

3. In cases where it is desirable and necessary to cancel all buses in the AM, the transportation supervisor shall do so and inform CKDM Dauphin and CFRY Portage. This decision shall be made by 6:30am. The Transportation Maintenance Supervisor shall immediately inform the Superintendent of the decision to cancel the buses and it shall be the responsibility of the Superintendent to inform the radio stations about affected school activities for that day. In cases when the transportation supervisor is unavailable the superintendent or secretary-treasurer shall take on the transportation supervisor's responsibility. All bus drivers/schools/trustees will be contacted and the bus drivers will contact all parents on route.

4. It is the policy of Turtle River School Division not to run buses at other than the regular time: Regular Morning Run and 3:15pm.

5. If road conditions or visibility appears to be too dangerous to release the buses at 3:15, then the emergency billeting policy shall be enacted. The school Principal in consultation with bus drivers shall make the decision. The principal shall inform the transportation supervisor, or the superintendent, or other senior administration and the local trustees, including trustees whose school is at-tending practical arts at another school, of the decision.

6. It is the responsibility of the school to contact all the parents of children on the bus routes that the billeting policy is being put into effect and that the buses will not be running. The parents shall be informed that they may pick up their children at the school, at their own risk; otherwise the child/children will be released into the care of the billet. It is the school division's responsibility to transport students billeted in another community back to their home school when conditions permit.

7. Bus drivers that are on route from school with students when they subsequently ascertain that conditions are not safe to travel are to return to the school if possible or stop at an appropriate safe location.

8. In cases where feeder buses are involved it is the responsibility of the driver to inform the principal and the feeder bus drivers. If another school is affected by not running the buses, the principal shall phone the affected school.

9. If students are forced to remain at school after regular school hours for any reason and the students do not have a billet home, the local principal is responsible for providing the supervision of the students in question. The principal shall be authorized to purchase necessary food supplies.

10. In the event of students transferring from one bus to another, bus drivers are to make necessary arrangements with the other bus drivers. If it is decided that the AM route shall not be driven, then at no time during the day will that particular bus run. When buses do not run in the AM and where parents bring their children to school, parents will be responsible to take their children home.

11. If a bus breaks down or can't be started, and is unable to make its run, the bus driver shall inform the transportation supervisor immediately. All efforts shall be made to get a replacement bus to make that run. If a bus doesn't make the morning run and parents bring their children to school, the Turtle River School Division will make all efforts possible to repair the bus or have a replacement for the PM run. If this is not possible, parents will be required to assist transporting children. The onus to contact parents lies with the bus driver.

12. Parents should insure that their children are appropriately and properly dressed for winter months.

NOTE: The board's mandate is to insure that the children are transported safely to school on a daily basis. Parents have a right to keep their children at home when they feel that road and or weather conditions are unsatisfactory for travel. Parents also have the right to pick students up early from the school if they feel that road or weather conditions will deteriorate and become unsatisfactory for travel at 3:15.

Appeal Process:

- Appeals of Disciplinary Decisions

Students and parents must follow the school board's established appeal process. Typically, this involves an appeal to the teacher who made the disciplinary decision, then to the school principal if not resolved, then to the superintendent of schools if not resolved, and finally to the school board. Exceptions are suspensions in excess of five days and expulsions; in these cases, the appeal goes directly to the school board. These are explained below.

- Appeals of Suspensions

In the case of a student who has been suspended for more than five days, the school board must permit the student and his or her parent or legal guardian to make representations to the school board about the suspension. The school board may confirm the suspension, modify it, or reinstate the student.
