## SCHOOL ESD PLAN – 2023/2024

### Planning Process

List or describe factors that influenced your priorities.  
-staff discussions/concerns regarding student and school needs

Describe the planning process and the involvement of students, staff, families and the community.

Who was involved?  
Professional and support staff, PTA group

How often did you meet?  
At our regular staff meetings (1x per month), June and September all staff meeting

What data was used?  
Staff recommendations, previous years results

### School Priorities ESD

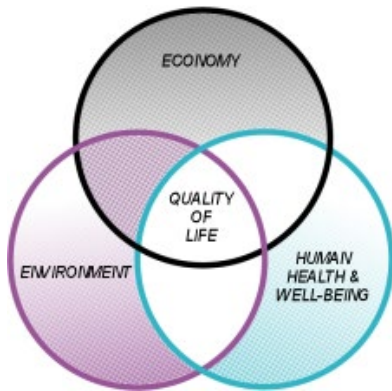

1. Students will become informed and responsible decision-makers, playing active roles as citizens of Canada and the world, and will contribute to social, environmental, and economic well-being, and an equitable quality of life for all, now and in the future.

### School ESD Plan

#### Expected Outcomes

What specifically are you trying to improve for student learning?  
(observable, measurable)

1. **During the 2023-2024 school year, École Laurier students will complete 14 ESD projects throughout the school year that incorporate the fundamental principles of sustainable development.**

#### Strategies

What actions will you take?

##### Examples of some of the strategies that may be selected to meet our goal

- Students will participate in recycling in school
- Students will complete ESD lessons in classrooms (e.g. writing activity after watching and discussing an ESD video, after watching a news clip, after reading a news article, after a discussion of social issues, etc.)
- Students will participate in the Food Bank Christmas Hamper, Highway clean-up and town clean-up
- Students will grow flowers and vegetables from seed
- Students will maintain the school flower gardens during the Spring months.
- Eco-school certification
- Students will fundraise for a charity of choice with a walk-a-thon that incorporates healthy living practices
- Students will participate in an Earth Day Activity Day
- Students will participate in a compost program in the spring/summer months
- Students will pledge to make a change in their life in order to improve their quality of life and those around them
- Student discussion on what it means to be sustainable.
- Construction of outdoor classroom
- Digital citizenship lessons throughout the year
- Mental wellness bulletin board in school hallway

#### Indicators

How will you know that learning is improving?

- Students will participate in at least 14 ESD related activities.
- Students will be knowledgeable about some of the social issues involving our community and occurring in the news.
- Students will improve their overall health and well-being.
- Students will improve the life of other individuals in their community.
- Teachers will integrate ESD activities in the classroom
- Students will illustrate care, concern and responsibility for the environment.

#### Data Collection

By what means will you collect evidence of progress toward learning?

-ESD projects will be tracked as evidence of progress towards meeting our goal
